

About Us:

Our Mission is simple: to harness the power of art to transform how people look at themselves and the world.

For over a decade, Prismajic has been on a mission to empower people to explore themselves and the world around them using immersive art. Blending traditional art forms and cutting-edge technology, we create beautiful, elegant experiences that surround our guests, engage their senses, and transport them to three-dimensional new worlds.

Our immersive art installations encourage meaningful connections through shared experiences. Visitors contemplate new ideas, embrace and share the feelings created, and deepen their relationship with art, each other, and the rest of the world. Prismajic's playful and otherworldly themes brought to life with art and technology make for a thoroughly enjoyable and fun experience.

Now our immersive experience includes The Night Owls cafe, offering highly curated craft cocktails, beer, and wine, along with tasty and fun delights by Chef Thach Tran (Sushi Den, Cholon Bistro, Ace Eat Serve), as well as a Night Owls cocktail and mocktail program created by Bar Consultant Dusty Tran. This visually stunning space offers space for music, poetry readings, and other special events.

We Build Immersive Experiences...What's an immersive experience? It's something that surrounds you, engages your senses, and transports you to another world. Explore and interact; we combine cutting-edge technology and physical art to create spaces of great wonder, discovery, and joy.

We've been building for 10 years...

Prismajic started building immersive experiences for corporate clients in 2013 under the name Artistry Events & Design. Our goal was to eventually open our own experiences that would allow us to pursue our dream and mission of bringing the

power of immersive art to everyone.

In 2019 we opened our first immersive experience, *Natura Obscura*, in partnership with a local museum. That experience put Prismajic on the map. Our second experience, *Shiki Dreams*, was initially a small pop up we built while looking for a permanent home. Much to our delight it was named the 4th Best Immersive Experience in the country by USA Today.

We're now excited to bring a much larger, more elaborate version of *Shiki Dreams* to our new home at the Colorado Mills Mall in Lakewood, CO. Prismajic's new presentation of *Shiki Dreams* brings together more than 35 Colorado artists and media, cultivating a diverse and dynamic creative community. Their artists specialize in a wide array of disciplines, including animation, technology, sculpture, woodwork, and painting.
